RECOMMENDED ROUTINE (RR) — ILLUSTRATED FORM & PROGRESSION MANUAL

100% Bodyweight-Only Edition (Zero Barbells / Zero Bands) — Darebee & Overcoming Gravity Line-Art

Mon / Wed / Fri: Full RR
Tempo: **1-0-X-0** | Rest: **90s Pairs**
Sets: **3×5–8 / 3×8–12 (1 RIR)**

1. ALTERNATING PAIR PROTOCOL (90S REST)

Pairs 1–3: Perform Set 1 of Exercise A → Rest 90s → Set 1 of Exercise B → Rest 90s → Repeat for 3 sets. Gives each muscle group **3+ minutes of local recovery** in half the time.

2. TEMPO (10X0) & 1 REP IN RESERVE

1–2s controlled lowering, **0s** bounce, **X** explosive drive up, **0s** reset. Stop **1 rep short of failure** on Sets 1–2 so you hit clean volume across all 3 sets.

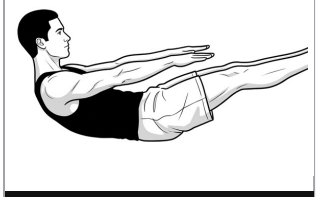

3. DOUBLE PROGRESSION RULE

Start a variation at **3×5** (or 3×8 for hinges/rows). Add **+1 rep per session** (5,4,4 → 5,5,4 → ... → 8,8,8). Once you hit the top of the range on all 3 sets, advance to the next level.

PART 0: FUNDAMENTAL BODY MECHANICS (REQUIRED ON EVERY REP)

Hollow Body Pelvis Lock (PPT) & Active Scapular Control

0A. HOLLOW BODY HOLD (PPT)

TUCK TAILBONE — CRUSH LOWER BACK FLAT

0A. Hollow Body & Posterior Pelvic Tilt (PPT)

Core & Spine Lock

- **How to Lock In:** Tuck your tailbone under (pull belt buckle toward chin), squeeze glutes 100%, and draw lower ribs down into abs.
- **Deadbug Warm-Up (30s):** Lie supine, press lower back flat into floor with zero gap, and slowly extend opposite arm/leg.
- **✕ Fault:** Banana-back arch on Push-Ups, Planks, Pull-Ups, or Handstands.

0B. ACTIVE SCAPULAR HANG

DEPRESS SHOULDERS DOWN AWAY FROM EARS

0B. Active Scapular Control (4 Positions)

Shoulder Armor

- **Depress (Pull Down):** Pull shoulders away from ears (Pull-Ups, Dips, Support Hold, L-Sit).
- **Retract (Pinch Back):** Pinch blades together (top of Rows, Arch Hangs).
- **Protract (Push Apart):** Spread blades wide (top of Push-Ups, Plank, Crane).
- **Elevate (Shrug Up):** Push floor away into ears (Handstands).

PART 1: DYNAMIC WARM-UP SEQUENCE (5–8 MINUTES BEFORE EVERY RR SESSION)

100% Equipment-Free / Towel & Bar Prep

W1. STICK / TOWEL DISLOCATES

ELBOWS LOCKED — SHRUG UP OVERHEAD

W1. Towel / Stick Shoulder Dislocates

10 Slow Reps

- Hold a broomstick or bath towel pulled taut with a wide overhand grip.
- Keep **elbows 100% locked straight**, shrug shoulders up as arms pass overhead, and keep ribs tucked down.

W2. SQUAT SKY REACHES

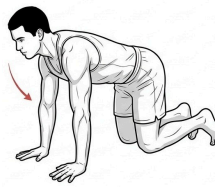

DEEP SQUAT — ROTATE CHEST TO CEILING

W2. Squat Sky Reaches (Thoracic & Hips)

10 Reps / Side

- Drop into a deep bodyweight squat with heels flat on the floor.
- Grab one ankle/instep with one hand, use the elbow to pry the knee out, and **rotate the other arm straight up to the ceiling**, following your hand with your eyes.

W3. GMB QUADRUPED WRIST PREP

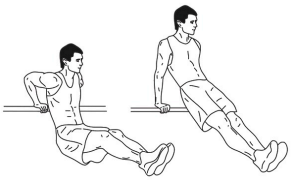

ELBOWS STRAIGHT — ROCK OVER FINGERS

W3. GMB Quadruped Wrist Prep

10 Reps × 4 Ways

- On hands and knees with **elbows locked straight**, spread fingers wide.
- Perform 10 gentle rocks in 4 positions: (1) Fingers forward; (2) First-knuckle palm pulses; (3) Fingers pointing back toward knees; (4) Back-of-hand stretch.

W4. PARALLEL BAR SUPPORT HOLD

LOCK ELBOWS — DEPRESS SHOULDERS 30–60s

W4. Parallel Bar Support Hold (+ 8 Arch Hangs)

30–60s Hold

- Press up to locked arms on parallel dip bars (or two sturdy chairs).
- **Push shoulders down hard away from ears** (active depression), lock elbows, and hold a hollow body for 30–60s. Pair with **8–10 Scapular Arch Hangs** on the pull-up bar.

PAIR 1: PULL-UP PROGRESSION (3×5–8) + SQUAT PROGRESSION (3×5–8 /LEG)

Alternate Pull Set → 90s Rest → Squat Set → 90s Rest (3 Rounds)

1A-1. ARCH HANG & NEGATIVES

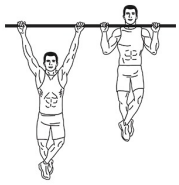

RETRACT SCAPULAE & 5–10s SLOW DESCENT

1A (L1–L3). Scapular Pulls, Arch Hangs & Negatives

Levels 1–3

- **L1–L2 (Scapular Pull / Arch Hang):** From dead hang with straight arms, pull shoulders down and arch upper back toward bar (3×8).
- **L3 (Pull-Up Negatives):** Jump/step chin over bar and lower for a **strict, even 5–10 second eccentric** all the way to dead hang (3×5).

1A-2. STRICT PULL-UP / CHIN-UP

DEAD HANG TO CHIN OVER BAR — ELBOWS DOWN

1A (L4–L6). Strict Pull-Ups → L-Sit Pull-Ups

ACTIVE: L4 (3×5–8)

- **Setup:** Overhand grip slightly wider than shoulders, starting from a **100% straight-arm dead hang**.
- **Execution:** Depress scapulae first, drive elbows down toward your ribs until chin clears the bar, and lower under control (1–2s) to full lockout.

Ladder: L1: Scap Pulls → L2: Arch Hangs → L3: Negatives → **L4: Pull-Ups** → L5: L-Sit PU → L6: Archer PU

1B-1. STEP-UP & SPLIT SQUAT

ZERO BACK-LEG PUSH — 3s ECCENTRIC

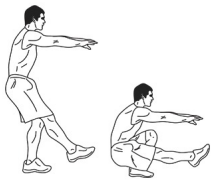

1B (L1–L4). Single-Leg Sofa Step-Up & Split Squat

ACTIVE: L3 (3×5–8/leg)

- **L3 (Single-Leg Sofa Step-Up):** Place working foot on sofa/box, lean torso slightly forward, and **pull rear toes up (dorsiflex)** so you cannot bounce off the back calf. Lower for a **3-second eccentric**.
- **L4 (Bulgarian Split Squat):** Elevate rear laces on sofa, descend until rear knee kisses floor, and drive up through front heel.

Ladder: L2: BW Squat → **L3: Sofa Step-Up** → L4: Bulgarian Split Squat → L5: Shrimp → L6: Pistol

1B-2. SHRIMP & PISTOL SQUAT

KNEE TRACKS OVER TOES — FULL DEPTH

1B (L5–L6). Shrimp Squat & Single-Leg Pistol Squat

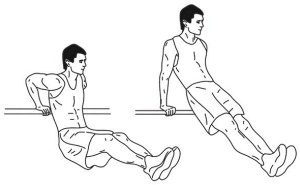

Levels 5–6

- **L5 (Shrimp Squat):** Hold rear ankle behind hip (or keep shin horizontal in air); descend on front leg until rear knee and toes lightly kiss the floor together.
- **L6 (Pistol Squat):** Extend non-working leg straight in front, reach arms forward for counterbalance, and squat to full depth on one leg.

PAIR 2: DIP PROGRESSION (3×5–8) + BODYWEIGHT HINGE PROGRESSION (3×8–12)

Alternate Dip Set → 90s Rest → Hinge Set → 90s Rest (3 Rounds)

2A. PARALLEL BAR DIPS (3×5–8)

SLIGHT FORWARD LEAN — DESCEND TO 90°

2A (L1–L5). Parallel Bar Dips Progression (100% Bodyweight)

ACTIVE: L3 Parallel Dips (3×5–8)

- **Setup:** Start in locked-out support on parallel bars with shoulders depressed (long neck) and legs held tight in a hollow body.
- **Execution:** Lean torso slightly forward (~15–20°), tuck elbows back (~45° max flare), and lower under control until your **shoulder crease reaches at least elbow height (90°)**. Press explosively back to full lockout.
- **✕ Avoid:** Shrugging shoulders into ears, flaring elbows out 90°, or cutting reps above parallel.

Ladder: L1: 60s Support Hold → L2: Negative Dips (5–8s eccentric) → **L3: Parallel Bar Dips** → L4: L-Sit / 2s Pause Dips → L5: Ring Dips

2B-1. FLOOR SLIDE HAMSTRING CURL

HIPS EXTENDED IN PPT — SLIDE & CURL HEELS

2B (L3–L5). Floor Slide Hamstring Curl

ACTIVE: L3 (3×8–12)

- **Setup:** Lie supine with heels on sliders, wool socks, or a towel on a smooth floor.
- **Execution:** Tuck pelvis (PPT), bridge hips up into a straight line from shoulders to knees, and **slide heels out and curl back in** without letting hips sag toward the floor.
- **L4 Upgrade:** Slide out on **1 leg (4s eccentric)**, curl back with 2 legs.

Ladder: L1: Single-Leg RDL → L2: Glute Bridge → **L3: Floor Slide Curl** → L4: 2-Up/1-Down Slide → L6: Nordic Curl

2B-2. SINGLE-LEG RDL HINGE

FLAT BACK T-SHAPE — HINGE AT HIPS

2B (L1 & L6). Single-Leg RDL & Nordic Curl

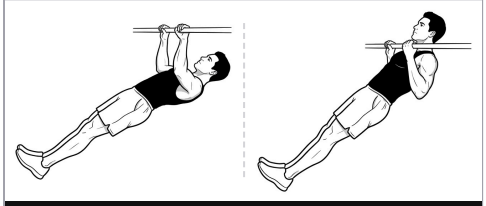

Warm-Up / Level 6

- **Single-Leg RDL (Balance & Hip Hinge):** Keep standing knee softly unlocked (15°), hinge hips backward while extending rear leg straight back into a rigid horizontal T-shape with squared hips.
- **L6 (Nordic Hamstring Curl):** Anchor ankles under a heavy sofa; keep hips locked extended and lower torso slowly toward floor using pure hamstring tension.

PAIR 3: INVERTED ROW PROGRESSION (3×8–12) + PUSH-UP PROGRESSION (3×5–8)

Alternate Row Set → 90s Rest → Push-Up Set → 90s Rest (3 Rounds)

3A. INVERTED ROW (1. HANG → 2. PULL)

RIGID PLANK LINE — PULL BAR TO LOWER CHEST

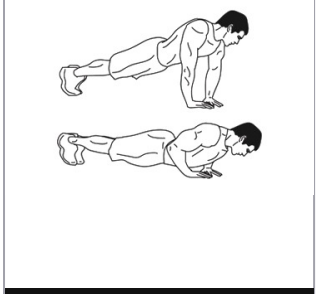

3A (L1–L5). Horizontal & Feet-Elevated Inverted Rows

ACTIVE: L2 Horizontal Rows (3×8–12)

- **Setup:** Hang underneath a waist-high bar, sturdy table, or rings with heels on the floor (L2) or elevated on a sofa/chair (L3).
- **Execution:** Squeeze glutes and abs to form a **rigid straight plank from ankles to shoulders**. Pull your lower chest/upper abs to the bar while **retracting shoulder blades together** (1-second pause at top), then lower to full arm extension.
- **✕ Avoid:** Letting hips sag, piking hips up with momentum, or jutting chin forward to reach the bar.

Ladder: L1: Incline Row (45°) → **L2: Horizontal Row** → L3: Feet-Elevated Row → L4: Wide / Tuck Front Lever Row → L5: Archer Row

3B-1. STANDARD → DIAMOND PUSH-UP

ELBOWS TUCKED 30–45° — HOLLOW CORE

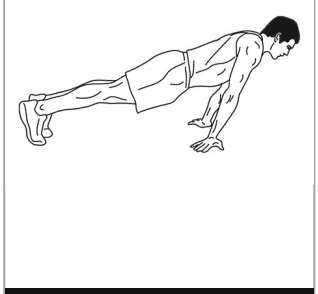

3B (L2–L4). Standard → Diamond Push-Ups

ACTIVE: L3 Diamond (3×5–8)

- **Setup:** Place index fingers and thumbs together (or 2–3 cm apart) directly under your sternum; lock pelvis in **posterior pelvic tilt (PPT)**.
- **Execution:** Keep elbows tracking back at **30–45° along your ribs** (never flared 90° sideways). Lower until chest touches hands, then press to full lockout with **scapular protraction** at the top.

Ladder: L1: Incline PU → L2: Full Push-Up → **L3: Diamond Push-Up** → L4: Decline Diamond → L5: PPPU

3B-2. PSEUDO PLANCHE PUSH-UP

LEAN SHOULDERS AHEAD OF WRISTS — PROTRACT

3B (L5–L6). Pseudo Planche Push-Up (PPPU)

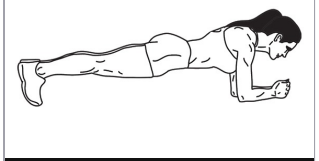

Levels 5–6

- **Setup:** Turn fingers 45–90° outward (or backward) and **lean your shoulders 15–25 cm forward ahead of your wrists**.
- **Execution:** Maintain that exact forward shoulder lean at both the bottom and top of every rep, finishing with a strong protracted hollow upper back.

PART 3: CORE TRIPLET — ANTI-EXTENSION + ANTI-ROTATION + EXTENSION (2 SETS)

Circuit: Core 1 → 60s Rest → Core 2 → 60s Rest → Core 3 → 60s Rest (2 Rounds)

C1. HOLLOW FOREARM PLANK (2×30–60s)

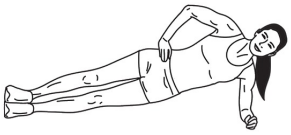

POSTERIOR PELVIC TILT — SQUEEZE GLUTES

Core 1 (Anti-Ext): Hollow Forearm Plank

ACTIVE: 2 × 30–60s

- **Not a Passive Rest Plank:** Tuck tailbone hard (PPT), squeeze glutes + quads 100%, protract shoulder blades, and pull elbows metaphorically toward your toes.
- **L2–L4 Upgrades:** Walk elbows 10 cm ahead of eyes (**Long-Lever Plank**) → Plank Towel Slide-Outs → Standing Ab Walkouts.

C2. SIDE PLANK → COPENHAGEN (2×15–45s)

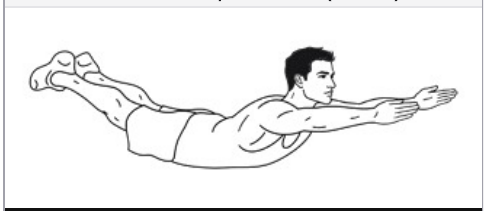

STACK HIPS & SHOULDERS — NO SAG

Core 2 (Anti-Rot): Side Plank → Copenhagen

ACTIVE: 2 × 15–45s/side

- **L1 (Stacked Side Plank):** Elbow directly under shoulder, feet stacked, drive bottom hip high and squeeze glutes so body forms a straight line.
- **L3 (Copenhagen Plank on Sofa):** Rest top foot/ankle on your sofa seat and lift bottom leg off the floor — builds elite adductor & oblique stability for running!

C3. ARCH HOLD / REV HYPER (2×8–12)

LIFT WITH GLUTES & SPINAL ERECTORS

Core 3 (Extension): Prone Arch Hold & Sofa Reverse Hyperextension

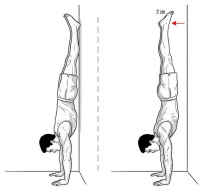

ACTIVE: 2 × 8–12 Reps

- **Path A (Sofa Reverse Hyperextension):** Lie prone on your sofa/bed with your hip crease right at the edge and grip the frame firmly. Squeeze glutes and spinal erectors to lift straight legs to horizontal (1s pause at top), then lower under control.
- **Path B (Prone Arch Hold / Superman on Floor):** Lie face down on the floor, lock knees, point toes, and lift chest, straight arms, and thighs off the floor so only your belly rests on the mat (2 × 30s hold or 8–12 dynamic raises with 2s top hold).

PART 4: SUNDAY SKILL & MOBILITY DAY ROUTINE (30–35 MINUTES — LOW CNS)

Stop 2–3 Seconds Before Shaking — Motor Control, Straight-Arm Strength & Runner Tendon Rehab

S1. CHEST-TO-WALL & HEEL PULLS

ELEVATE SHOULDERS — CLAW FINGERS TO FLOAT

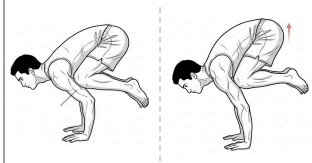

Skill 1 (10-Min Timer): Chest-to-Wall Handstand & Wall Heel Pulls

5–6 × 15–30s (60s Rest)

- **Chest-to-Wall Setup:** Walk feet up the wall facing the wall until hands are 5–10 cm from the baseboard (never kick up back-to-wall).
- **3 Non-Negotiable Cues:** (1) Push floor away hard (**elevate shoulders into ears**); (2) Lock pelvis in **PPT**; (3) Press fingertips into the floor ("finger brakes") so your toes float 1–2 cm off the wall for 2–5s at a time.

Ladder: L1: 45° Wall Plank (60s) → **L2: Chest-to-Wall Hold** → L3: Wall Heel Pulls → L4: Freestanding Handstand

S2. CROW (BENT) → CRANE (STRAIGHT)

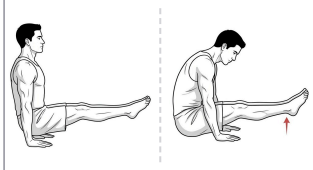

GAZE 30 CM AHEAD — PROTRACT SCAPULAE

Skill 2 (5-Min Timer): Crow → Crane Pose

4–5 × 15–30s

- **Crow (Bent Arms):** Rest knees on backs of triceps, grip floor with cambered fingers, and **gaze 30 cm ahead on the floor** until toes float up.
- **Crane (Straight Arms):** Tuck knees into armpits, **lock elbows 100% straight**, and protract shoulder blades hard.

S3. FLOOR L-SIT & PIKE LIFTS

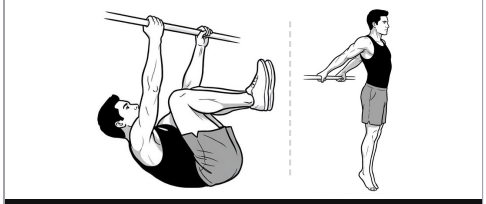

DEPRESS SHOULDERS — COMPRESS HIP FLEXORS

Skill 3 (5 Min): Floor L-Sit & Pike Compression

60s Total + 3×10s

- **Floor L-Sit (60s total):** Palms beside hips, lock elbows, and **push shoulders DOWN hard** (Foot-Supported → 1-Leg → Tuck → Full L-Sit).
- **Seated Pike Leg Lifts (3×10s):** Hands on floor past knees; lift locked straight legs without leaning backward.

S4. SKIN THE CAT → GERMAN HANG

ELBOWS 100% LOCKED — MILD 5/10 STRETCH

Skill 4 (3–4 Min): Skin the Cat & Controlled German Hang

2–3 × 3–5 Slow Reps

- **Tuck Inversion:** Hang from pull-up bar with overhand grip and locked straight arms. Depress scapulae, tuck knees to chest, and roll backward through your arms.
- **German Hang Stretch:** Slowly lower hips into shoulder extension while keeping **elbows 100% locked straight**. Pause 3–5s at a mild 5/10 chest & biceps-tendon stretch, then pull back over to dead hang.

S5-A. KNEELING COUCH STRETCH

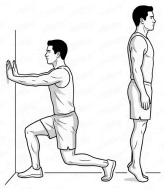

TUCK PELVIS (PPT) & SQUEEZE REAR GLUTE 60s

Mobility 5A: Kneeling Couch Stretch

60s / Side

- Rear knee on cushion at base of sofa/wall (shin vertical up wall), front foot in 90° lunge.
- **Tuck tailbone under (PPT) and squeeze rear glute 100%** before bringing torso upright to unlock psoas & rectus femoris.

S5-B. SOLEUS + ISO ANKLE HOLD

60s SOLEUS DRIVE + 3×30s ISO CALF HOLD

Mobility 5B: Soleus Drive + Iso Ankle Hold

Ankle Tendon Care

- **1. Bent-Knee Soleus Wall Stretch (60s/side):** Drive bent knee over toes toward wall with heel glued flat.
- **2. Isometric Calf/Ankle Hold (3×30s/side):** Hold mid-range single-leg heel raise rock-steady for 30s to calm irritated ankle tendons and stiffen collagen.

Complete Weekly Schedule: Mon / Wed / Fri: Full RR (Warm-Up + Pairs 1–3 + 2x Core Triplet) | **Tue:** 7–8 km Easy Zone 2 Run (<148 bpm) + Strides | **Thu:** 8–9 km Tempo Run (155–165 bpm) | **Sat:** 10–12 km Long Run (≤155 bpm) | **Sun:** Skill & Mobility Day (30–35m).
